4.1 Dialogue: Planning the Saturday Beach Clean-up

St Ives Teen Magazine: Every Saturday, local volunteers meet at the harbour pier to collect marine plastic and protect coastal seabirds in Cornwall.

Maya: Look at the harbour poster, Liam! Volunteers collected 142 kilos of plastic last month.

Liam: That's impressive, Maya. If we join the group on Saturday, we will help protect the seabirds.

Mrs O'Connor: Good morning, you two! Have you signed up for the St Ives environmental project yet?

Maya: Yes, Mrs O'Connor! If more students had reusable bottles, there would be far less waste.

Liam: Let's bring sturdy gloves and recycling bags to the Harbour Pier at ten o'clock.

1. Erkläre Lukas auf Deutsch die wichtigsten Ergebnisse der Strandreinigung in St Ives (Menge, Müllarten).
2. Write a short reply email (60–80 words) to Maya and Liam introducing your own school eco-project.

Study Skills: Working with an English-German Dictionary & IPA Phonetics

- 1. Word class abbreviations: Always check whether a headword is a noun (n.), verb (v.), or adjective (adj.). Many English words like 'volunteer' can be used both as a noun and a verb.
- 2. Word stress in IPA: The vertical mark ['] in phonetic transcription always stands directly before the main stressed syllable (e.g. [/səˈsteɪnəbl/] -> stress on '-stain-').
- 3. British vs. American English: Note British spelling '-our' in 'harbour' (AE: 'harbor') and the optional final r-sound [ə(r)] in British Received Pronunciation.
- Tip for Mediation: Never translate sentence by sentence—summarise the key facts in your own words!
